

Community Provider Pharmacy Resource Guide

What is Partners For Kids?

Partners For Kids is a pediatric accountable care organization affiliated with Dayton Children's Hospital. Partners For Kids delivers services for over 400,000 children in west central Ohio who are insured by select Ohio Medicaid Managed Care Plans. Partners For Kids also employs clinical pediatric pharmacists who support primary care and behavioral health prescribers in providing clinically appropriate and cost-effective medications for their patients.

How does Partners For Kids' pharmacy team help community providers?

Develop and regularly update prescribing resources that are available to you for FREE on the Partners For Kids' website (PartnersForKids.org/resources).

Prescribing Guidelines Resource

Prescribing guidelines provide treatment algorithms, dosing information and clinical pearls for common conditions treated in the primary care and behavioral health setting.

- **Anxiety Disorders and Depression** — Featuring starting doses and titration guidance for medications
- **Asthma** — Featuring an interactive asthma pathway that assists with diagnosis, management and treatment of asthma
- **Attention Deficit/Hyperactivity Disorder (ADHD)** — Featuring dose conversion guidance for switching between stimulant medications

Pediatric-focused Preferred Drug List For Ohio Medicaid

This pediatric-focused resource lets you quickly see the medications covered by Ohio Medicaid plans.

- Preferred medications and available dosages for common pediatric conditions: asthma, ADHD, allergies and more
- Links to drug look-up tools and complete formularies, which can help avoid unnecessary prior authorizations
- Updated quarterly to align with coverage changes from Ohio Department of Medicaid

Partners For Kids' pharmacy team can also help with:

- Tools and tips for avoiding and resolving prior authorizations
- Fulfilling your PFK Network requirement with a pharmacy education session
- Practice and patient-level medication fill pattern reports to identify areas of opportunity
