

INHALER PATIENT ASSISTANCE PROGRAMS

Partners For Kids designed this resource to support healthcare professionals in guiding uninsured or underinsured patients to the lowest out-of-pocket cost for their asthma inhalers. This resource is not intended for use for Ohio Medicaid patients. Please refer to the [PFK UPDL](#) for asthma inhaler coverage for Ohio Medicaid patients. This resource is developed by PFK pharmacy and updated quarterly to ensure accurate and timely information. For clinical decision-making guidance, please refer to the [PFK Asthma Pathway](#).

Copay cards reduce cost up to the maximum benefit of the card. Patient is responsible for any remaining balance. [GoodRx](#) can be used instead of insurance coverage, it cannot be combined with insurance or copay cards & the cost of the medication does not go towards the patient's insurance deductible. Cost varies by pharmacy, refer to [goodrx.com](#) for details.

Definitions:

ICS: inhaled corticosteroid | LABA: long-acting beta-agonist | LAMA: long-acting muscarinic antagonist

DPI: dry powder inhaler | MDI: metered dose inhaler | (B): brand | (G): generic
