

INHALER PATIENT ASSISTANCE PROGRAMS

Partners For Kids designed this resource to support healthcare professionals in guiding uninsured or underinsured patients to the lowest out-of-pocket cost for their asthma inhalers. This resource is not intended for use for Ohio Medicaid patients. Please refer to the [PFK UPDL](#) for asthma inhaler coverage for Ohio Medicaid patients. This resource is developed by PFK pharmacy and updated quarterly to ensure accurate and timely information. For clinical decision-making guidance, please refer to the [PFK Asthma Pathway](#).

Copay cards reduce cost up to the maximum benefit of the card. Patient is responsible for any remaining balance. GoodRx can be used instead of insurance coverage, it cannot be combined with insurance or copay cards & the cost of the medication does not go towards the patient's insurance deductible. Cost varies by pharmacy, refer to [goodrx.com](#) for details.

Definitions:

ICS: inhaled corticosteroid | LABA: long-acting beta-agonist | LAMA: long-acting muscarinic antagonist

DPI: dry powder inhaler | MDI: metered dose inhaler | (B): brand | (G): generic

Medications are **BOLDED** if product is available as generic
